

Alerts. Stay up to date and informed on all of your account activity, including your budgets and goals, without being near a computer. All you need to do is provide an email account you wish to use, and an optional cell phone number you wish to receive text alerts on. To get started, click "add an alert". Choose one of the categories for your alert, and then simply fill in the criteria. For example, you can receive a notification that your cable bill is due in three days. Once you have chosen all of your alert options, click, "add alert". Create as many alerts as you want. Because with these alerts, you'll never be out of your financial loop again.
