

It's important to know where you're going. And where you go, your money follows. Congressional Financial GPS helps get you to your financial destination, wherever that may be. The enhanced online financial management tool, powered by Congressional Federal Credit Union, gives you the opportunity to manage your finances with speed and ease. With Congressional Financial GPS, you can reference your accounts from various financial institutions. Whether they're a block away, or across the city. All in one centralized location. This allows you to get a complete snapshot of what's going on with your money. The best way to keep track of your finances is to create and maintain budgets. Keep your spending in check with the budget tool, so you can keep visiting your favorite coffee house. Once a transaction is made, and is posted to your account, your budget is updated to reflect your remaining balance. The same budgeting tools can be used for any number of categories. Saving up for that new home across town? With Congressional Financial GPS, you can visually track your progress in achieving your goal. Whether it's saving for retirement, paying off debt, or planning your dream wedding. No goal is out of reach. The cashflow calendar is another function that gives you a visual cue of when income is deposited, and when expenses are due. Providing a real-time view of cash on hand. By mapping out your cashflow calendar, you can reach any financial destination you wish. For a more in-depth look, check out the video tutorials that highlight all of the Congressional Financial GPS features. Just like you trust a GPS to take you from point A to point B, trust Congressional Federal with all of your financial needs. Because wherever takes you, we're there.
